Clear PVC-U Static Mixer

Static Mixers are a highly engineered mixing device that allows for the continuous mixing of fluids within a pipeline, with no moving parts and utilising the energy generated from the flow stream.

Static Mixers can provide a consistent, cost effective and reliable approach to mixing.

Our Static Mixer consists of either 6 or 12 PVC-U mixing elements depending on the viscosity of the conveyed fluid, encased within a Clear PVC-U housing.

Complete with PVC-U socket unions offering an ease of installation into new or existing pipework.

Features & Benefits

- Effective Inline Mixing
- Visual Monitoring
- Ease of Installation
- Removable For Maintenance
- Lightweight

Typical Applications

- Chemical Dosing
- Mixing Applications

Sizing Options

- Imperial: ½" up to 2"
- Metric: 20mm up to 63mm

Clear PVC-U Static Mixer Metric		
Size	Product Code	Mixing Elements
20mm	SMC6E306	6
20mm	SMC12E306	12
25mm	SMC6E307	6
25mm	SMC12E307	12
32mm	SMC6E308	6
32mm	SMC12E308	12
40mm	SMC6E309	6
40mm	SMC12E309	12
50mm	SMC6E310	6
50mm	SMC12E310	12
63mm	SMC6E311	6
63mm	SMC12E311	12

Clear PVC-U Static Mixer Imperial		
Size	Product Code	Mixing Elements
1/2"	SMC6E102	6
1/2"	SMC12E102	12
3/4"	SMC6E103	6
3/4"	SMC12E103	12
1"	SMC6E104	6
1"	SMC12E104	12
1 1/4"	SMC6E105	6
1 1/4"	SMC12E105	12
1 1/2"	SMC6E106	6
1 1/2"	SMC12E106	12
2"	SMC6E107	6
2"	SMC12E107	12
